

Are Your Flowers Trying to Stay Alive?

Hydrate Your Cut Flowers with Arrive Alive Packaging

Arrive Alive Packaging™ is a patent pending horticultural foam material which hydrates flowers in shipment. The foam directs 99% of the water to the stems.

- *Wrap with foam and secure with a rubber band*
- *Hydrate with floral solution*
- *Sleeve with bag and secure with a rubber band*
- *Pack horizontally for shipment*
- *Better utilization of freight space with hydration*
